

Gainful Employment Disclosures – January 2021

Program Name: **HEALTH DATA ANALYST CERTIFICATE**

This program is designed to be completed in 12 months.

This program will cost \$6,609 if completed within normal time. There may be additional costs for living expenses. These costs were accurate at the time of posting, but may have changed.

Of the students who completed this program within normal time, the typical graduate leaves with \$0 of debt.

Program qualifies students to sit for licensure exam in the following States: This certificate is a specialized field within Health Information. The certificate can either be taken stand alone or can be completed as a partially embedded portion of the Associates in Health Information Technology program which is accredited through CAHIIM with a few additional courses required. In order to become certified as an RHIT students must complete the Associates Degree and are then eligible to sit for the RHIT administered through AHIMA. The stand-alone certificate does not make the student eligible to sit for the RHIT. However, this certificate prepares students who have acquired their RHIT credential for careers in Data Analytics as well as the CHDA certification administered through AHIMA. The CHDA meets licensure requirements throughout the US.
