

What is includedED?

In the includedED program, students access all of their course materials in the Blackboard environment. The eBook and digital resources that are typically accessed with an "access code" are now deeply integrated into the course through Blackboard. This benefits students by offering the convenience of paying for course materials with tuition and fees, by eliminating the wait time in bookstore lines, and most importantly it increases student success by ensuring that all students are prepared the first day of class.

Accessing your Course Materials

On the first day of your class, please log into your course in Blackboard. You will find information about includedED and how to access your digital resources. You will also receive an e-mail informing you which courses are includedED.

Optional: Low-Cost Print Copy of Textbook

Don't worry if digital is not the answer for you, you can purchase a low-cost print of your digital textbook. This is in addition to the regular includedED fee. Note: The Bookstore only keeps 2-3 copies of each book so you may have to special order it.

How do I know if my course is part of the includedED program?

- You will see includedED messaging in the course description on your class schedule.
- You will receive an e-mail notification listing your includedED courses.
- When you go to the DACC Online Bookstore, you will see includedED messaging.
- You will see includedED messaging when you log in to Blackboard
